

My Ally

Victoria Williams

No we don't make passionate love
No we don't even kiss and hug
Not a lot of jealousy
I'm friends with you
I hope you're friends with me

You're my ally

Worn out grudges just don't exist
Spin around till we're tired of this
We don't care who owes who
You don't own me I don't own you

You're my ally

Standing on the pavement
Looking like an accident
Waiting on the weekend
Catch you in the wind

You're my ally
