

# Can't Have Your Cake

Vince Neil

When I was a young boy my mama would say  
Son you ain't always gonna get your way  
Times will be good times will be bad  
You ain't always gonna get a winning hand  
Son she always said you gotta stand tall  
Even when it looks like you'll take a fall  
Life is short and sometimes sweet  
Get out of the kitchen if you can't take the heat

Everything she said was true  
My mama never was a fool  
Gotta live your life by the golden rule

I guess it's true what they say  
Really true what they say  
I guess what mama said was true  
Can't have your cake and eat it too, babe

I never doubted any word my  
Mutha said  
With all the sinnin' runnin' 'round my head

Everything she said was true  
My mama never was a fool  
Gotta live your life by the golden rule

Everything she said was true  
My mama never was a fool  
Gotta live your life by the golden rule

I guess it's true what they say  
Really true what they say  
I guess what mama said was true  
Can't have your cake and eat it too, babe
