

Forever

Vince Neil

Thinking back those long summer days
Young and not afraid
Did what we wanted to
Broke some hearts didn't think I'd ever start
To get tired of the part
That's when I pictured you

Met a face already knew so well
It was easy to tell
That you knew me too
Spent our time laughing all the while
I made you lose your smile
Now I'm losing you

Is it too late
'Cause just like before
I'll be knocking at your door

Can't take the pain away from you
And there's nothing I can do
Until you let me through
Without you there's nothing left for me
Oh baby can't you see
Together we will be, forever

Time's have changed, some are good and some are bad
The future that we have
Can't be all a dream
Nights that we would find, when we nearly lost our minds
Now could we ever be so blind
'Cause we were meant to be

Is it too late
'Cause just like before
I'll be knocking at your door

Can't take the pain away from you
And there's nothing I can do
Until you let me through
Without you there's nothing left for me
Oh baby can't you see
Together we will be, forever
