

Promise Me

Vince Neil

My Friend
You've been with me
From the beginning
Of everything
The beginning of you
The beginning of me
You always save me when I'm breaking

And if all we've got is time
Forever is not enough
And if this life is for the living
Then I'm never giving up
And as the road divides
That runs off with our lives
Promise me you will never say goodbye

The sound of us laughing
Keeps on going
Like an endless song
Your secrets are mine
Trust me I'll hide them
I'll always break through to the real you

If all we got is time
Forever is not enough
And if this life is for the living
Then I'm never giving up
As the road divides
That runs off with our lives
Promise me you will never say goodbye

Generation them
Generation us
What's the difference now or then
The world's still messed up

If all we got is time
Forever is not enough
And if this life is worth living
Then I'm never giving up
As the road divides
That runs off with our lives
Promise me you will never say goodbye
