

Skylar's Song

Vince Neil

I'm starin' into the night
Seen the times of my life with you
With you it'll always be right
My burnin' light
your star will shine tonight

Sky you will always be mine
I feel the angels by your side
I thought there would always be time
This love of mine
For our love in a future time

I feel you with me at night
I sense your every move
I know you hear me
And everything I do

I dream of the things that you say
And the times that we play
Your love is the warmth of my day
It'll never fade away

I feel you with me at night
I sense your every move
I know you hear me
And everything I do

I swear my never-ending love to you
Lord it's true a never-ending love to you

I feel you with me at night
I sense your every move
I know you hear me
And everything I do

I do it for you
Love, my never-ending love for you
Love, my never-ending love for you
