

# Let Freedom Rock

Vinnie Vincent Invasion

Heavy metal cry heard around the world  
Rebel yell we shout out loud  
We got your rock, we'll guard your soul  
We're the law and we lay it down

Do or die I love it  
Right or wrong I need it

We're gonna rock you  
We live for love and glory  
And die for what we know is truth

We're gonna let it rock  
Let freedom rock  
Let, let it rock  
Let freedom rock  
Let, let it roll  
Let freedom rock  
Land of the free and the brave  
We're gonna let it rock

So proudly we hail at dawns' early light  
To the shores of Tripoli  
We're b.a.d. balls to the wall  
No mercy for the enemy

Shout out loud: fair warning  
Shout out loud: fair warning

We're gonna rock you  
Young thunder never dies  
In blood we sign on the dotted line

We plead untied - we are the rock of ages  
We are the hammer of the gods  
Rejoice our victory - its celebration day  
Freedom ring loud and be proud
