You smile because you know
You smile I told you so
C'mon gimme a smile---I'm gonna let you know

You're something special

Your momma don't lie Your papa don't lie Your momma don't lie Your papa don't lie All of the good things They said about you They said you were hot Ooo I think it might be true Special special what do you get Another day older and deeper in debt Special special what do you get Another day older and deeper in debt Get away from me I'm gonna hurt somebody Get away from me I'm gonna hurt somebody No, I don't really want to hurt nobody But sometimes I just gotta hurt somebody 'Cause people are dangerous And people are adventurous And people are mysterious And people are they're suspicious Of somebody who' special What's so special about him What's so special
