

# Light The Universe

Vivian Green

Thank you for coming into the green room  
I hope you had a wonderful times listening  
Got a special treat on this last one  
Got my girlfriends to help me sing some positive words  
And we wanna put some positive energy out into this universe  
Is that alright yall?  
Alright, hit it

Anything you wanna do you can do it  
If you didn't know, you need to hear this  
I need you to hear it too  
And now I wanna share with you  
It's so easy not to believe  
You're the next thing the world's gonna see  
But love is really what you make it  
Look in the mirrors, make these affirmations

I am special, I am gorgeous  
I am chosen, yes I know it  
And I.. yes, I can light the whole universe  
I am different, I have purpose  
I am brilliant, yes I feel it  
And I.. yes, I can light the whole universe

Never can you lose sight of your focus  
Only you can make your dreams of hope come true for you  
This is something only you can do  
But when you're feeling down and you don't believe  
Cause everybody's telling you you won't succeed  
Say I am all of that and a bit more  
More than you think I am

Special (I am), gorgeous (I am)  
Chosen (I am), yes I know it  
And I.. yes, I can light the whole universe  
I am different, I have purpose  
I am brilliant, yes I feel it  
And I.. yes, I can light the whole universe

Special (I am), gorgeous (I am)  
Chosen, yes I know it  
And I.. yes, I can light the whole universe  
I am different, I have purpose  
I am brilliant, yes I feel it  
And I.. yes, I can light the whole universe

You may not know about me  
But I got the power inside me  
To light it to light it..  
Can't let my fears get a hold of me  
I'm confident in my ability  
To light it to light it..  
And when it seems hard to conceive it  
Open your mouth and repeat it  
To light it to light it..

Think only positive things

And your life will begin to change  
You'll see a whole new meaning, a whole new season  
But it can't happen if you don't believe it

I am special, I am gorgeous  
I am chosen, yes I know it  
And I.. yes, I can light the whole universe  
I am different, I have purpose  
I am brilliant, yes I feel it  
And I.. yes, I can light the whole universe

I am special, I am gorgeous  
I am chosen, yes I know it  
And I.. yes, I can light the whole universe  
I am different, I have purpose  
I am brilliant, yes I feel it  
And I.. yes, I can light the whole universe

I am special, I am gorgeous  
I am chosen, and I know it  
Said I can light the whole universe  
I am different, I have purpose  
I am brilliant, yes I feel it  
And I.. yes, I can light the whole universe

I am special, I am gorgeous  
I am chosen, yes I know it  
And I.. yes, I can light the whole universe  
I am different, I have purpose  
I am brilliant, yes I feel it  
And I.. yes, I can light the whole universe

Believe me when I tell you now that  
I am, you are  
We all can light it  
We all can light it  
We can light the universe oh yea
