

Too Intense

Vivian Green

Butterflies in the sky
I feel just like that
Thirty five thousand feet
I feel just like that

Skydivin', freefallin'
I feel just like that
I feel just like that
I feel just like that

One across the first car
I feel just like that
Ferris wheel, at the top
I feel just like that

Carousel spinnin' round
I feel just like that
I feel just like that
I feel just like that

I can't catch my breath
It's too intense, tense
I need just a minute
Give me just a minute
It's out of control
This is out of control

Got me thinkin' 'bout the future
I feel just like that
Wanna trust, lose control
I feel just like that

Apprehension out the door
I feel just like that
I feel just like that
I feel just like that

Don't care what anybody says
I feel just like that
Let's run away together now
I feel just like that

Whatever you wanna do
I feel just like that
I feel just like that
I feel just like that

I can't catch my breath
It's too intense, tense
I need just a minute
Give me just a minute
It's out of control
This is out of control

Tell me if you feel
(Just like that, that)
On top of the world

(Just like that, that)

Higher
Now I can get higher
Just look at me now
Nothing can bring me down

Butterflies in the sky
I feel just like that
Thirty five thousand feet
I feel just like that

Skydivin', freefallin'
I feel just like that
I feel just like that
I feel just like that

One across the first car
I feel just like that
Ferris wheel, at the top
I feel just like that

Carousel spinnin' round
I feel just like that
I feel just like that
I feel just like that

I can't catch my breath
It's too intense, tense
I need just a minute
Give me just a minute
It's out of control
This is out of control, baby

It's out of control
It's out of control, baby
Ooh, ooh, yeah, ooh, ooh
It's out of control, baby
It's out of control, baby

I can't catch my breath
It's too intense, tense
I need just a minute
Give me just a minute
It's out of control
This is out of control

I can't catch my breath
It's too intense, tense
I need just a minute
Give me just a minute
It's out of control
This is out of control

Butterflies in the sky
I feel just like that
Thirty five thousand feet
I feel just like that

Skydivin', freefallin'
I feel just like that
I feel just like that
I feel just like that
