

# Desperate

Vixen

There you go, walking away like you did before  
But I know, I know you'll be back, back for more  
And the game, the game will go on as it was  
Nothing's changed, we'll know when we're closer to love

Aren't we desperate, aren't we afraid  
We're just two lost and lonely people, scared to be alone again  
Aren't we desperate, aren't we afraid

Can't you see that there are no victims, just volunteers  
We won't change, we won't change until we face our fears  
We're alone, even though we are together right now  
Love remains, just out of reach somehow

Aren't we desperate, aren't we afraid  
We're just two lost and lonely people, scared to be alone again  
Aren't we desperate

I know we can make it, take up that look into my eyes  
We'll take the future for you and I, yeah!

(Solo)

Are we so desperate, oh are we afraid  
We're just two lost and lonely people, scared to be alone again  
Are we so desperate, aren't we afraid
