

# Not a Minute Too Soon

Vixen

I was pretending it was easy alone  
I built a fortress to keep out the unknown  
Surrounded myself with the walls of rejection  
Trapped in the dungeon for my own protection  
Your smile came shining through so pure I knew

Not a minute too soon  
Your love came through for me  
You are the water in my desert  
Not a minute too soon  
Your love got through to me  
You rescued me just in the nick of time

Time after time I threw my heart away  
My faith was fading fast day after day  
I had enough of giving in  
I couldn't lay down my pride  
So love just pushed me aside  
Your kisses washed away my thirst  
Every touch felt like the first

Not a minute too soon  
Your love came through for me  
You are the water in my desert  
Not a minute too soon  
Your love got through to me  
You rescued me just in the nick of time

In this angry world  
I thought loneliness would shelter me  
My broken spirit cried in vain  
Till you set me free

Your kisses washed away my thirst  
Every touch feels just like the first

Not a minute too soon  
Your love came through for me  
You are the water in my desert  
Not a minute too soon  
Your love got through to me  
You rescued me just in the nick of time  
Not a minute too soon  
Your love came through for me  
You are the water, yeah, you are the water  
Not a minute too soon  
Your love got through to me  
You rescued me just in the nick of time  
Not a minute too soon

(Not a minute too soon) You are the water in my desert  
(Not a minute too soon) You know your love came through for me, your love got through to me  
(Not a minute too soon) I want you to rock me, roll me  
(Not a minute too soon) I wanna be the one [to fade]
