

# One Night Alone

Vixen

I'll tell ya that I love you, if it makes everything alright  
I just wanna hold you, I've got something to prove tonight  
I'm tired of the telephone, can't you give me one night alone

I'm staring at your picture, I realize what you mean to me  
Every single moment is burning deep in my memory  
It doesn't matter what they say, our love's too good to throw i  
t away  
All we need is

One night alone - just you and me, won't you give me  
One night alone - 'cos that's all I need  
One night alone - you lovin' me

I wanna feel your heart beat in the darkness next to mine  
I need to feel your heartbeat to know our love's still alive  
The power of your tender touch, you know I waited long, long en  
ough, for just

One night alone - that's how it should be, all we need is  
One night alone - just you and me  
One night alone - you lovin' me, can't you give me  
One night, one night

This isn't the way two lovers live  
This isn't the dream I wanna be living in, no no no

I'm tired of this telephone, can't you give me one night alone

One night alone - just you and me, all we need is  
One night alone - that's how it should be  
One night alone - you lovin' me, all we need is  
One night, one night alone
