

## Power Dive

## Voices of Destiny

I'm losing ground  
No end in sight

Sympathetic angels pass me by  
Falling back into reality again  
Your promises used to keep me flying blind so high  
Count the seconds until I hit the ground

They told me that it would be better now  
But nothing has changed  
Upon my soul, this should be better now  
But it's all in vain

Can't trust my world  
I'm losing ground  
Full speed ahead  
No end in

I challenge you for a race to hell  
Confess the recklessness within  
My motivation, a clear objective  
The first to die will be honored for life

Can't trust my world  
I'm losing ground  
Full speed ahead  
No end in sight

Can't trust my world  
I'm losing ground  
For hope has died  
In my power dive
