

Another Day, Another Way

Volbeat

Jumping on the next train
And for a moment
I just don't know where I am
Sick and tired of seeing good people
Bending over for the system that I hate

Never meant to break your heart
But for a moment I just know I have
Give me time to cope my mind
And finding faults for the reason
To why I leave

Must leave when I'm going strong

Lead me away and I shall call love on you
Leave me the way that I still burn over you
I've been aware

Sitting here in county hail
I should have been with you
But that's just how I am
Ain't no one to go my bail
But at least I know just when
And how I leave

Must leave when I'm going strong

Lead me away and I shall call love on you
Leave me the way that I still burn over you
Well i've been waiting for years
And I still call love on you
Leave me the way that I still burn over you

Well I've been aware
