

# hello goodbye

## Volumes

Just may lose my mind from time to time  
Keep on elevating I climb  
Everytime I turn the corner I can see death in the face  
Just another empty shell living disgrace  
Applying pressure to the throat  
One to many times how can this effect my life

Wandered towards the light do it all again night

Falling like I'm hurt  
Sinking in the dirt need it first I'm in love  
Crawling like a worm  
I'm a scarecrow in the field I need the work

Like a candle that burns from both ends  
Sit back watch it turn to ash and witness the end

Hello goodbye  
Goodbye hello  
I'm so gone never gonna make it home  
All alone now take me out my zone now

Hello death it's my pleasure nice to meet

It all became so clear when I let go  
Thoughts inside my head that left me cold

Let me go

I turn cold  
I turn cold

Hello goodbye  
Goodbye hello

I'm so gone never gonna make it home  
All alone now take me out my zone now

Goodbye hello

Hello death it's my pleasure nice to meet

Like a candle that burns from both ends  
Sit back watch it turn to ash and witness the end

I turn cold  
I turn cold  
I'm so cold  
I turn cold
