

Inertia stands over me  
Holding me down on her bed  
A million lights as they shed off of me  
I remember the drug waking me up

An insufficient fluid based  
Down your back  
Being remembered in waves  
It meant the world  
A pioneer expecting the worst

From a pressed colored label  
You rebuild with your hands  
A vision I have known  
To feel the extract underneath the palms  
In an enhanced nighttime  
With the weight of virtuality  
Like the sound when planes collide  
To the ground in my eyes

I lost myself deep within its depths  
I'll surface with time in the waters where we met  
You lost your sight  
So remember how it used to be  
So get used to me  
I'll see you on the other side

An insufficient fluid based  
Down your back  
Being remembered in waves  
It meant the world  
A pioneer expecting the worst

Louise, Louise  
Where I met you  
Underneath extended stars  
I wait until the day breaks  
Will I ever see you again?
