

Up All Night

Volumes

I tried a thousand times to make you feel it
Like the days when we had first met
But I feel I never moved you
What the fuck how did we forget?

And in another life would it be different
Would we do it all again?
And at that would you tell me that you loved me?
All alone why should I pretend?

Gagged and bound
You told me you broke down
And I believed everything
My love for you was logic drowned
Round and round
I came all the way down
To tell you that I'm really here
And I don't wanna waste my time

Without you without me
And I'm not being honest
I get it back to get me off
She did me dirty once before
But now that's over
I had it all in my hands
Until you ripped it out again

Let it go there's nothing left
Underneath the masquerade

You got me up all night
I wake up in another room
You wake up, you're never next to me
Oh no, no, no
And I'm coming home tonight
But this house wasn't built for two
If I let you have the rest of me,
Would you tell me the truth?

I tried a thousand times to make you feel it
Like the days when we had first met
But I feel I never moved you
What the fuck how did we forget?

And in another life would it be different
Would we do it all again?
And at that would you tell me that you loved me?
All alone, why should I pretend?

I put my trust in you like I had nothing to lose
Now I'm all confused
Tell me what to do
Tell me what to do
Tell me what to do

I had enough I'm through
I put my trust in you

I had nothing to lose
Tell me what to do with that said
I never wanna see you again

It feels so flawless
The summer in august when we fell in love
Looking back remember when we first met
The morning dove into my soul made of gold. No
How could you be so thoughtless?
My lover my goddess I was so in love with
How could you be so faithless?
Ignore dedication
I showed her through

Without you without me
And I'm not being honest
I get it back to get me off
She did me dirty once before
But now that's over
I had it all in my hands
Until you ripped it out again

Let it go there's nothing left
Underneath the masquerade, death
