

Southern California Street Music

Voodoo Glow Skulls

Southern California street music
Is a way of life for me.
Pollutes the air I breathe
And I'll let it define me.

From the streets of Hollywood and back to the IE
It's like no other place from the desert to the sea
Ragin' con San Diego, the riots in HB.
Backyard parties east L.A. part of the legacy.

You can hide behind your baseball teams
Or go outside and freeze.
Southern California street music is a part of you and me.
Mask it up with your down home pride and cheesy loyalty
Southern California street music runs through my blood real deep.

Everyone knows where it all goes down
And where it all comes from.
Some will never know
Go out and get you some.

There's not surrender and no compromise
This is our life, so recognize.

GO!

You can hide behind your baseball teams
Or go outside and freeze.
Southern California street music is a part of you and me.
Mask it up with your down home pride and cheesy loyalty
Southern California street music runs through my blood real deep.
