

# They Always Come Back

## Voodoo Glow Skulls

He's jumped on the one way track  
And there ain't no coming back  
Should have thought before you leapt  
Now you're on a crusade to avoid your death  
The second time through you've gotta go feet first  
Just remember to hold your breath

They always come back

After the storm you'd better hold on tight  
Because you never know when you'll have to fight

Get on the good foot and stay in check  
Because in the end they always come back

They always come back

He's jumped on the one way track  
And there ain't no coming back  
Should have thought before you leapt  
Because in the end they always come back
