

Save My Friends

Votchi

I have been waiting the whole night long,
I've been waiting from dusk till dawn.
All the night creatures inside of me
Want to get out and taste your bloody soul.

I hold in my hands an old crucifix
The man who hangs there is crying thorny tears
This was the last time I held myself
I know that next I will bring hell to earth
To rule the world.

I see the world falling down
With bloody tears of vampires
And I'm holding you in my hands
Trying to save my friends.

I see my friends rising up
From their graves to the night
Searching for a fres tast of blood
And I know I must save my friends.
