

Forget My Name

Wage War

Try and hold me back but you won't I promise
'Cause I'm not losing sleep over what you say
I will never rest till I fill my coffin
I'll make sure you never forget my name

Try and hold me back but you won't I promise
'Cause I'm not losing sleep over what you say
I will never rest till I fill my coffin
I'll make sure you never forget my name

Cut me down like you always did before
Made up my mind, won't happen anymore

Never forget my name
Never forget my name
'Cause after all you've done
I'll never be the same

Never forget my name
Never forget my name
'Cause after all you've done
I'll never be the same

Try and hold me back but you won't I promise
'Cause I'm not losing sleep over what you say
I will never rest till I fill my coffin
I'll make sure you never forget my name

Try and hold me back but you won't I promise
'Cause I'm not losing sleep over what you say
I will never rest till I fill my coffin
I'll make sure you never forget my name

I'll make sure you never forget my name
I'll make sure you never forget my name

Say what you want
I won't hear a word
You'll come undone
Like the bridge you burned

Never forget my name
Never forget my name
'Cause after all you've done
I'll never be the same

Never forget my name
Never forget my name
'Cause after all you've done
I'll never be the same

Try and hold me back but you won't I promise
'Cause I'm not losing sleep over what you say
I will never rest till I fill my coffin
I'll make sure you never forget my name

Try and hold me back but you won't I promise

'Cause I'm not losing sleep over what you say
I will never rest till I fill my coffin
I'll make sure you never forget my name

The enemy wants me dead

I'll make sure you never forget my name
