

Fury

My scars have shown me who to be  
Held me down, pushed around but never buried me  
No compromise, no fear of pain  
I fight the war when you run the other way

One judgement, no Jury  
I am, I am the fury

Break free  
You have to face the truth  
No peace  
When there's a war in you  
One judgment, no jury  
I am, I am the fury

This is a warning shot  
It keeps me honest to God  
You could never survive in a world of casualty  
Open wounds turned to brick built my legacy

One judgement, no jury  
I am, I am the fury

Break free  
You have to face the truth  
No peace  
When there's a war in you  
One judgment, no jury  
I am, I am the fury

All my enemies hide around me  
I am the fury

Break free  
You have to face the truth  
No peace  
When there's a war in you  
One judgment, no jury  
I am, I am the fury

I am the fury  
One judgment  
No jury  
... Don't ask for mercy

Don't ask for mercy
