

## Call Me Up

Wakey!Wakey!

Was a time and a place when the look in your eyes was everythin  
g  
Little things that you did just to win my trust  
And I did not lie when you heard me say  
That I'd stand by you till my dying day  
And that day has yet to come

Come on call me up  
Say it's not broken, say it's not done  
I'll be waiting up  
Thinking things over, over and over  
I'll will sing you a love song  
Just come on call me up...

Well it's all moving fast and I know nothing lasts in love thes  
e days  
All we've got on our minds and the speed never letting up  
Well you know I'm tired but you know I'll wait  
And I'll stand by you till my dying day  
Not a thing's gonna change that it's you I love

Our love  
Our love  
It's times like these that it's so clear to me  
That it's you that I wanted  
You with me all along

So come on, call me up...
