

## Salvation

Wakey!Wakey!

I was lost but now I'm found  
What a beautiful moment  
Finally I got it figured out  
I got so tired of not knowing

You and what you're doing through

Salvation comes like a light turned on  
Salvation comes, salvation comes  
Salvation comes like a light turned on  
Salvation comes

You're just lost but you'll be found  
It's all there where you're going  
Just breathe in and then breathe out  
Close your eyes and just know it

Salvation is never giving up  
On the ones you love  
Salvation is never giving up  
On the ones you love

When there's no one left to lift you up  
You reach up, you reach up  
You'll grow taller, it'll all the smaller  
If there's no one left to lift you up  
You reach up, you reach up  
Til your arms become wings  
And they lift you, lift you  
And they'll lift you, lift you

Yeah we all wanna be loved  
Yeah we all wanna be loved  
So don't give up, don't give up,  
Yeah, we all wanna be loved
