Pigtails Are For Face Fucking

Waking the Cadaver

Forced deep into the separated cranium of a crusty used up slut : my gigantic rod.

Swollen member penetrating her now empty eye sockets, and all o ther holes are to be filled.

Crushing and fucking pulverized brain tissue with a still moist tongue caressing my sack.

The bitch never saw that one comin.

She tried to scream, she tried to fight.

But I plugged her throat.

With my ten inch pipe.

She choked and gagged and punched for mercy.

But this whore should ave known better.

I busted out my trusty blade.

and removed her skull from her twitching body.

Now theres silence and the bitch is dead.

Finally I can fuck some face in peace and quiet.
