

## False Flag

### Walking with Strangers

I turn my head inside out  
To find myself somewhere in time

They call me soldier  
But to me the word has no meaning

I turn my head inside out  
To find myself somewhere in time

Fight to the end

There must be something more than this  
I can feel it in my bones  
If there are people I shouldn't trust  
They are the ones

I find myself someday, somewhere  
I find myself someday, somewhere

I seek comfort in family and friends  
Who call me by my name

Fight to the end, is what they say  
Fight to the end, is the only way

Fight to the end

But I'll still fight a war  
If you can give me something worth fighting for

Fight to the end, is what they say  
Fight to the end, is the only way

Fight to the end

I will never look back  
And never surrender

I'm not alone  
And I'm stronger than ever

I turn my head inside out  
To find myself somewhere in time
