Baby Please

Walter Meego

The light in your eyes is the light in my life It's dark here tonight without you in my life

So baby, baby Baby won't you come back to me to me Baby please

The touch of your hand can wake me up or make me understand You make the spell of the night time and bring the sunshine to my life again

So baby, baby Baby won't you come back to me to me Baby please

The light in your eyes is the light in my life It's dark here tonight without you in my life

So baby, baby Baby won't you come back to me to me Baby please (2x)
