

Am I Even a Memory?

Wanda Jackson

Just by chance we didn't meet again
And it carried me back to when
But you turned and passed me by
Like you saw me through stranger's eyes

Am I even a memory?
Darling have you forgotten me?
In the night in the dreams you see
Am I even a memory?

Something happened somewhere in time
Now you're no longer mine
What became of the love we shared?
Happiness and the way we cared

Am I even a memory?
Darling have you forgotten me?
In the night in the dreams you see
Am I even a memory?

Not an hour of a day pass by
When memories don't make me cry
What become of the love we shared?
Happiness and the way we cared

Am I even a memory?
Darling have you forgotten me?
In the night in the dreams you see
Am I even a memory?

Am I even a memory?
Darling have you forgotten me?
In the night in the dreams you see
Am I even a memory?
