My Days Are Darker Than Your Nights

Wanda Jackson

You never knew how much I loved you I tried but you just couldn 't see the light

You're out there somewhere with her now I guess it's best for y

But my days are darker than your nights

My days are darker than your nights I wait for mornings that ne ver arise

There's just no end as long as I'm alive my days are darker than your nights

You'll never know just what I'm going through I hope you'll never need someone like I need you You're happy now you've got just what you want But don't think that I'll forget you cause I won't My days are darker than your nights...
