

Shine It On

Wanessa

You're over there causing commotion
So I decide, follow the crowd
To get to you, I'll cross the ocean
I'll travel time, I want to

Boy, bring it on, I'll be the one to take you higher
Boy, bring it on, I want to
Hot it and sun
I'ma be the one to light your fire
Boy, bring it on,

We go all in tonight, to get you in tonight
You've got the brightest light, shine it on me
Don't let the music stop,
Don't let my heart be dropped
Your light is so damn hot, shine it on me
Shine it on, shine it on, shine it on me
Shine it on, shine it on, shine it on me
Shine it on, shine it on, shine it on me
Shine it on, shine it on, shine it on me

The night is young, so let's embrace it
I take a turn, follow your doubt
May you be loved, if you decide me
So here we go I need to

Boy, bring it on, I'll be the one to take you higher
Boy, bring it on, I want to
Hot it and sun
I'ma be the one to light your fire
Boy, bring it on,

We go all in tonight, to get you in tonight
You've got the brightest light, shine it on me
Don't let the music stop,
Don't let my heart be dropped
Your light is so damn hot, shine it on me
Shine it on, shine it on, shine it on me
Shine it on, shine it on, shine it on me
Shine it on, shine it on, shine it on me
Shine it on, shine it on, shine it on me

Boy that's desire, come lit up my fire
Come lit up the flame, it's time to lean on me
Boy that's desire, come lit up my fire
Come lit up the flame, it's time to lean on me

We go all in tonight, to get you in tonight
You've got the brightest light, shine it on me
(shine it on me)
Don't let the music stop,
Don't let my heart be dropped
Your light is so damn hot, shine it on me
We go all in tonight, to get you in tonight
You've got the brightest light, shine it on me
Don't let the music stop,
Don't let my heart be dropped, shine it on me

Shine it on, shine it on, shine it on me
Shine it on, shine it on, shine it on me
Shine it on, shine it on, shine it on me
Shine it on, shine it on, shine it on me
Shine it on, shine it on me
