

# Appropriate Tools Required To Intercept And Obstruct Errorism

War from a Harlots Mouth

You're under surveillance  
But they force you to smile  
The grin of suppression  
Makes the face of regression

Understand what situation you're in  
And ask the right questions

You still give up  
What will never become

Self-determination  
Vs. higher income

Your freedom has a price  
And you pay it from the taxes

Which pay their coup d'état  
The rise of the establishment  
Operations under false flag  
Are their power, your retirement

You rather buy things you don't need  
From money you don't have  
To impress people you don't like  
Who keep the job 'inside'
