

Best of Times

Wardrum

Rest your thoughts awhile
Let your mind astray
Listen to voice of your soul
Wipe the wayward sigh
Of your fears away
Secrets are about to uncloze

Dear soulmate learn from history
Bitter grief and sorrow won no victory

The best of times is now
Make these moments last
Life is hard but no fate's a given fact
The best of times is now
Let go of yesterday
Other than this good day is so far away

Diverse points of view
Kindred chosen words
Senses imbue me with their light
Will you join the choir
Of our merry souls
Secrets are about to uncloze

Dear soulmate will you pause to hear
Winners are the ones who never give in

The best of times is now
Make these moments last
Life is hard but no fate's a given fact
The best of times is now
Let go of yesterday
Other than this good day is so far away
