

Deceiver

Wardrum

I hear the countdown
The clock ticks life away
I know I tried hard
But I don't seem to find my way
Nothing but yearning
That's what you left for me
And then you're burning
Your bridges like an enemy

I can't move on, nor can I forget you

You showed me
It's more than just a game
And played your role until
We reached the final stage
You know it; I'll never be the same
I'm caught inside a promise
Never to be kept from you

So many times that
You've been caught in a lie
But you had powers still over me
I can't deny

I can't move on, nor can I forget you

You showed me
It's more than just a game
And played your role until
We reached the final stage
You know it; I'll never be the same
I'm caught inside a promise
Never to be kept from you
