

The Meaning of Forever

Wardrum

Time's not what I was told it is
More pain and suffer all it gives
Its one more thing among all I cannot weather
This game nobody ever won
And it's so useless to dream on
For nothing stands in the meaning of forever

Been spending most this life with ease
Mating my heartaches with your needs
But even paired souls condemned are to dissever

When the days where washed up by the color of your eyes
All these feelings where away
And I meant it when I said I wish that you could stay
Till forever and a day

And life's not what I'm told it is
The more I share the less it brings
A way to Eden that crawls you through the never
Is there a need to share a home
Or just the fear of being alone
Sweet lies define the meaning of forever

When the days where washed up by the color of your eyes
All these feelings where away
And I meant it when I said I wish that you could stay
Till forever and a day
