

Burnt Out

Warfare

Absorbed toils of mass future for the working class

Burnt out mind and burnt out soul burnt out life with no contro
l

Dominated fire app you're just full of crap

Don't let them have the upper hand corruption they are so bland

Empires reckon modern world

Never listen never told

They're watching you!!

It's what they do and it's all true

They just can't see

Burnt out

My last breath in this song going out where I began

I'm starting up and leaving town I'm out of here won't be aroun
d

Holding on for lifes own sake, lived this life without a break

Lived it fast burnt at both ends

Epitaph a road no bends

I don't really care cos they're not really there

Wave your little flags go you in a body bag

So called power what have they done I'd burn their eyes out in
the sun

Traitors gate it aint too late got the world in a state

Never have the upper hand but sense should tell you we're all d
amned

A clever plan has been mastered rot in hell you bigamist bastar
d

Big brother to keep them tame but who shall have the final sham
e

Fuck the queen that you all bought

fuck the queen oh what a thought.

They just can't see

Burnt out
