

Living for the Last Days

Warfare

Youth and sin and anarchy
Spread around the globe
Volume sounds and shakes
The night say goodbye to the old
Destruction upon violence paves the only way
A fire burning so displeasing welcome to your day

Living for the last days
living for the last days

Blood suck the heart of metropolis
Echo through ya mind
Perpintrator holds the key
Destroy his fuckin kind
Macabre solutions they unfold
Open up the night
Bursting out of mother's wombs
At last we've put this right

Living for the last days
living for the last days ..
