

Faded

Warrant

I look into your eyes
I used to see blue skies
Every single time I knew
You saw it too
Now as the years have passed
Distorted like old glass
Magnify my fears
Bring us both to tears

Is this the middle or the end
Do we break or do we bend

Are we faded?
Like your favorite pair of jeans
Coming apart at the seams
In the space between you and me
Are we faded?

The things that life has shown
That only we can know
Our secrets deep inside
Expressions we can't hide
The memories that we share
Don't show the wear and tear
All the time we honest now
With the silence out

Is this the middle or the end
Do we break or do we bend

Are we faded?
Like your favorite pair of jeans
Coming apart at the seams
In the space between you and me
Are we faded, should we just let go
Or is this where we both know
It's the best place we can be

How did we get this far away
Can we go back to yesterday

Is this the middle or the end
Do we break or do we bend
Are we faded?

Are we coming apart at the seams
In the space between you and me
Are we faded, should we just let go
Or is this where we both know
It's the best place we can be
Are we faded?
