

Last night I had a dream
About you
And how you fit in my naked life
Mistakes, I guess I made a few
Here and there and from time to time
yeah, Oh yeah
I know, Lord I dreamed about it
Every detail in every move
I'm sure, there's no doubt about it
I'm trying to break through -
To you
I've tried several other people
Came close a few times but then
It just broke down
I wont lie, I wont kid about it
Merry come 'round and 'round

Hey love, hold me close
Pull me in, don't let go
Faith and love, aren't enough
I should know, give me hope
Let it show
I think you know
How to make me feel high

All, all that I want
Is a moment of your precious time
And all, all it would take
Is let me come over to your side
I think you know how
To make me feel high
