

U in My Life

Warrant

I love to watch you every morning
In the mirror as you start your day
It's funny you don't realize
The difference that you've made in my life

It's in the way you look at me
Helps this beat on boy believe
Even when I've had my doubts
There ain't a thing that I can't do
Long as I got you in my life
You in my life

Now if this world's got your heart breaking
And it's taking every smile away
I'd gladly give you one of mine
Like you've done for me so many times, yeah

It's in the way you look at me
Helps this beat on boy believe
Even when I've had my doubts
There ain't a thing that I can't do
Long as I got you in my life
You in my life
You in my life

Yeah

It's in the way you look at me
Helps this beat on boy believe
Even when I've had my doubts
There ain't a thing that I can't do
Long as I got you in my life
You in my life
You in my life
You in my life

You in my life
You in my life

It's in the way you look at me
Helps this beat on boy believe
