

# Smokin' Me Out

Warren G

If you want to be with me, yeah, let me hear you say Warren G, Warren G  
If you want to be with me, well well well, let me hear you say Warren G,  
Warren G

Smokin' me out to the finish, I thought you knew,  
I thought they knew, who was up in this,  
Ron Isley, I's be Warren G,  
Baby said would ya please come roll deep,  
Chocolate Thai, I said I,  
Got the Hennessy chaser, skirt you look fly  
Peepin' them lips, hittin' two finger sips,  
On the 710 freeway, I straight dips  
Wit a fat one rolled up to puff  
I'm ready to hit it and I won't quit it until I get enough  
Tokin' nothing but the bomb that's without no doubt,  
As she twist up another split she's straight smokin' me out

R: She's smokin' me out, smokin' me out  
Smokin' me out, smokin' me out,  
Oh she's smokin' me out with the homey's love

I slinkin' while I'm thinkin' just how good it is,  
To do it how we do it in the hood I live,  
Passin' homies on the block, gettin' major respect,  
And by then y'all the hen dog is taken effect,  
Never panic hit Atlantic then I banked to right  
Pulled straight Nellin B's order steak and rice,  
With the gravy, baby gets the shrimps and fries,  
I'm diggin' on her figure as I glimpse her thighs,  
She's satisfied, I left the tip and dipped to get back  
To twist another zag and to grab a six pack,  
She went back, so we proceed to parlay,  
Everything is lovely and we doin' it always

This ain't no love ballad,  
But see baby I gots to have it,  
When I see that bomb I grab it, 'cause its a habit,  
So don't come with that toe down stretch,  
I ain't stressin', Long Beach baby keep smokin' me out, she learned a lesson  
,  
Floatin' high as a kite as I chill and lay low,  
Bumpin' time is collected, Sunday nights on the radio  
Oh, I forgot, how lit I was, crazy glued to the seat  
Dog said she need,  
So conversation ain't needed,  
When she know that I'm weeded,  
Headin to the hotel to regulate it and beat it  
I exhaled, I seen a cloud of smoke,  
I banged it to the boogie by my head and got locced
