

# I've Got Dreams To Remember

Warren Haynes

I've got dreams,  
Dreams to remember  
Many many dreams  
Hard dreams and  
Rough dreams to remember

Saw you there last night  
Another mans arms held you tight  
I don't know how I felt inside  
All I know is I walked away and cried

I've got dreams,  
Dreams to remember  
Many many dreams  
Hard dreams and  
Rough dreams to remember

I know you said you was just afraid  
But I saw you kiss him again and again  
These eyes are lit they don't fool me  
Why did you hold him so tenderly

I've got dreams,  
Dreams to remember  
Many many dreams  
Hard dreams and  
Rough dreams to remember

I still want you to stay  
I still love you anyway  
Don't you ever leave  
Come on baby  
Don't you know you satisfy me

I've got dreams,  
Dreams to remember  
Many many dreams  
Hard dreams and  
Rough dreams to remember

I still want you to stay  
I still love you anyway  
Don't you ever ever leave me  
Don't you know that you satisfy me  
I've got dreams, dreams to remember  
I've got dreams, dreams to remember
