

Burn Out Blues

Washed Out

Life goes by
Each and every day
I need some time
So I can find a way

To slow down
Relax and clear my head
Just unwind
So I can breathe again

Feels so right
When it starts to take
I feel like I
Could leave and fly away

Close my eyes
Forget about the day
Open wide
And float away

You fly
So high
It's all behind you
You're safe

You fly
So high
It's all behind you
You're safe

You fly
So high
It's all behind you
You're safe
