

Rock' N' Roll Kids

Watcha

I don't mind and you don't care about it
I mean we're here to rock the nation
And no matter who you are forget your mangy tricks.
Tonight we go for the bust don't you know it's just
Friday come along and celebrate our frantic party
It's up to now rockin' that way
Come and play in the jungle, rock till dawn hear
the rumble
Come and play in the jungle, rock till dawn hear
the rumble
Break the wall and back to street
We are the dammed of the heavy rock
Break the wall and back to street
We are all rock 'n' roll kids
All for one and one for all you get it?
I mean we're here to buck you up
when everything is going down
When life sucks we just rock
Too many times in the dreck
Heartbreak and mistake but T.G.I.F
And we're gonna play, so come on, get ready
To bang your head and feel the energy
Come and play in the jungle, rock till dawn hear
the rumble
Come and play in the jungle, rock till dawn hear
the rumble
Break the wall and back to street
We are the dammed of the heavy rock
Break the wall and back to street
We are all rock 'n' roll kids
Step this way, let's share eveything in there
Bang your head, bang your head kids, rock 'n' roll kids
Rock 'n' roll kids screaming out in the street
Everywhere you're not alone.
Fucking loud, Come and scream
Fucking bullshit Isn't it?
