

Take Me There

Watermark

Take me there to the place where You are
Take me there, take me there, I just wanna be where You are
And hide me in Your shelter
Hide me here, hide me here, I just wanna be where You are

Take me there to the place where You are
Take me there, take me there, I just wanna be where You are
And hide me in Your shelter
Hide me here, hide me here, I just wanna be where You are

You have buried my sin in the depths, my Lord
And You covered me from the furious storm
And You kept me in the cleft of Your rock
And You loved me there right from the start

So take me there to the place where You are
Take me there, take me there, I just wanna be where You are
And hide me in Your shelter
Hide me here, hide me here, and I just wanna be where You are

You have buried my sin in the depths, my Lord
And You covered me from the furious storm, yeah
And You kept me in the cleft of Your rock
And You loved me there right from the start

So take me there to the place where You are
Take me there, take me there, I just wanna be where You are
And hide me in Your shelter
Hide me here, hide me here, I'd just love to be where You are

You are here and I can feel You
And I'd just love to be where You are
Hide me in Your shelter, hide me here
'Cause I'd just love to be where You are

Take me there to the place where You are
Take me there, take me there, I just wanna be where You are
Well, hide me in Your shelter
Hide me here, hide me here, and I just wanna be where You are

Take me there to the place where You are
Take me there, take me there, and I just wanna be where You are
And hide me in Your shelter
Hide me here, hide me here, I just wanna be where You are
Where You are

Just wanna be where You are
Just wanna be, just wanna, I just wanna be where You are

Take me there, take me there
Take me there to the place where You are
I just wanna be where You are
And hide me in Your shelter
Hide me here, hide me here, I just wanna be where You are
Where You are
