

That's How It Feels

Wave

It's such a crazy ride
You feel it deep inside
It seems like I could touch the sky, the sky

Just being close to her
She heals me, she's my cure
From all the pain out in the world

That's how it feels when you know
You've finally found her
Can't wait until you're back around her
It's like waking up from a dream
That turns out to be real
Yeah, that's how it feels

There's no more mystery
As long as she's with me
It's all become so clear to see

That's how it feels when you know
You've finally found her
Can't wait until you're back around her
It's like waking up from a dream
That turns out to be real

It's like driving way to fast
On a motorbike sitting on the back
It's like laying on the beach
Where the ocean air smells so sweet
Yeah that's how it feels
Yeah that's how it feels

That's how it feels when you know
You've finally found her
Can't wait until you're back around her
It's like waking up from a dream
That turns out to be real
Feels so real

That's how it feels when you know
You've finally found her
Can't wait until you're back around her
It's like waking up from a dream
That turns out to be real
