

## Up and Down

Wavves

My ice cream talks to me in dreams  
Meltin' into my hands  
The sun speaks in whispers to me  
Says she's never coming back

I was upside down, livin' it up  
I was upside down, don't give a fuck

My ice queen talks in her sleep  
She's never waking up  
The moon speaks, it sings me to sleep  
You'll never be good enough

I was upside down, livin' it up  
I was upside down, don't give a fuck

Upside down and inside out  
Take me home and kiss my mouth  
Fall asleep, don't wake up  
Taste so good I can't get enough

And if you're still here, please go home  
I'll just get high and I'll die alone  
And if you're still here, please go home  
I'll just get high and I'll die alone  
I'll just get high and I'll die alone
