

## Can't Do Much

Waxahatchee

We will coalesce our heaven and hell  
My eyes roll around like dice on the felt  
My mind turns to something useless and trite  
My uneasiness materialized

I want you  
All the time  
Sanity  
Nullify

When you're missing me, oh, what do you see?  
Something wild that you think you'll never be  
Something safe that you can tend to and leave  
Something versatile to fill all your needs

Maybe I give it to you all on a dime  
I love you till the day I  
Love you till the day I  
Love you till the day I  
Love you till the day I die  
I guess it don't matter why

In my loneliness, I'm locked in a room  
When you see me I'm honey on a spoon  
Do you think that you are reading my mind?  
My uneasiness materialized

I'm waiting  
All the time  
Sanity  
Nullify

I hold my breath, I don't make a sound  
I love you that much any  
Love you that much any  
Love you that much any  
Love you that much anyhow  
Can't do much about it now

I want you  
All the time  
Sanity  
Nullify  
I want you
