

You'll Look for Me

Waylon Jennings

There'll come a time girl you'll look for me in each horizon in
each face you see
You'll look for love like love used to be there'll come a time
girl you'll look for me

Look all around you if you have the time look at me once more i
f you can
You once said you loved me now you've changed your mind
But you'll change your mind again
There'll come a time girl...
There'll come a time girl...
