

More Than A Little Unusual

Wayne Watson

Everybody is picking on you
You're not like everybody else
And even when the big bad world, backs off just a little
Your still pretty hard on yourself
Feel like you just don't fit in, much
But your faith, your conviction is strong
And just because you march to the beat of a different drummer
Hey, that doesn't mean that your wrong

Ya see, Jesus was a rebel,
Do ya think he cared?
What people thought about him?
They thought he was weird
Didn't it keep him from his mission
Didn't keep him from his call

He was more than a little unusual
I tell ya, He was more than a little unusual

You gotta watch out, who you're hang around
Watch out, who your listening to
And just because its on t.v. or you read it in the paper
Hey, that doesn't mean that it's true
Sometimes you're paddling upstream
And sometimes you gotta go with the flow
Which is, which, in what, is what and when do whatever
And God you gotta help us to know

Don't want to be tied to the things of the world
By the strings of the world (no)
I want to walk a mile in your shoes, Jesus
Do what you do, go where you go

He was more than a little unusual
I tell ya, He was more than a little unusual
