

Bang Bang Rock & Roll

We Are Scientists

Bang, bang, rock and roll
Bang, bang, rock and roll
Well I met a girl
And she sold me a pill
It tasted like shit
And it made me feel ill
Watch my body
Twist and jerk
All I want is to find a drug that work
(I just wanna find a drug that works)

Bang, bang, rock and roll
Bang, bang, rock and roll
Well I don't like the sound of the Velvet Underground
(White Light! White Heat!)
I don't like that sound the second time around
(White Light! White Heat!)

Well I don't want a girl that's with the band
I just want a girl to hold my hand
No more songs about sex and drugs and rock and rock and roll
(It's boring!) It's boring

Bang, bang, rock and roll
Bang, bang, rock and roll
Well I don't like the sound of the Velvet Underground
(White Light! White Heat!)
I don't like that sound the second time around
(White Light! White Heat!)

Once is enough!
